

## Wondering if the provincial park you want to work at has staff housing available?

The list below shows all provincial parks that have limited staff housing available. If you are invited for an interview at one of these locations, be sure to mention that you would be interested in staff housing for the duration of your summer position. There are minimal costs associated with staff housing for students.

For any other provincial park locations, you will need to take care of your own housing arrangements.

Check out the [Ontario Parks Locator](#) website to learn the exact location of the parks you are interested in applying to.

### **CENTRAL REGION:**
